Zeitgeist is a mind heist – venus project is a scam ?

Just another WordPress.com weblog

The Venus Projects 990 EZ forms – expenses and income info [IRS audit info also]

Future by design inc is the non profit front company for the venus project. [half of the actual company] it also has a profit arm

Here are its 2008 & 2009 forms for download of the non profit claims, these forms are Roxanne Meadows own returns to the IRS and show her reported use of money that was donated to the non profit side of her business. Take a

look and get your accountant friends to review them and do some checking:

File Name: Future by design 990 ez for 2009.pdf

Size: 369.78KB | <http://www.sendspace.com/file/3rl6uy>

They have not filed their 2010 reports yet it seems.

Notice how in 2009 form in section 6a they fill in no, and in 35 they declare nothing, notice how at the bottom Roxanne fills in 0 hours and 0 payment for her role. Also note the claimed uses of the money, anyones alarm bells ringing about the values

and what it is used for ?

1. I noticed a lot of places in the IRS declaration where she lied! things like did you take position for against politicians? She said NO and TVP is against ALL politicians openly and so the answer should have been yes. Then the donation thing is oddly avoiding the cash sent in and she does not declare at all the travel or charges to people to speak or sales of book or the volunteer time or work... The whole damn thing is missing over 60% of the data in my opinion and why they are accused of running a 419 FRAUD to get land under lied up scam of RBE that simply does not work on ANY SCALES!
Add the FACT that the shit FRESCO was hunted for FRAUD! Yep that Shit con man once put up a shingle, and claimed his name was DR. JACQUES FRESCO ran away from a mob come to deal justice on him and should have gone to prison but by some miracle he did not. I am told they tore down the house he was using and living in! They hated his guts!
