## Zeitgeist is a mind heist – venus project is a scam ?

Just another WordPress.com weblog

### Will TZM's next Jared Lee Loughner kill Fresco & Meadows ?

I was wondering since this split has happened and all the TZM nutters have been slapped in the face and told by their real gurus that they know nothing, then they should leave TZM and that fake guru who knows nothing Merola immediately, hand over all their personal cash to TVP and work for free. Well I was wondering if the next Jared Lee Loughner from the cult will take offense to this and start a mindless vendetta against them, a warpath of vengeance showing them that the conspiracy theories they hold to be the truth outweigh their miserable dream city.

Lord knows that there are a handful of current TZM nutters who are potential Jared Lee Loughners, Doug Mallette, Galinor Gustave spring to mind right away, both of these have been shown to be violent on YouTube whilst representing the venus project and zeitgeist cult.

What do you all think ?

Who will be the next Jared Lee Loughner from their cult ranks?

And will they kill Fresco and Meadows?

1. Definitely an interesting question to pose. One can only wonder if this question is running through the heads of those two muppets
