Roxanne Meadows says scientists can not understand their hidden technology – Anonymous video

Sorry, the Wayback Machine does not have this video archived.

Yup as we all thought ourselves, she just makes shit up to keep people interested in her and Jacques stories, she has nothing to ever offer up and will keep dangling the carrot in front of anyone stupid enough to believe her.

2. I'm confused between the two, Jacque Fresco says that the Zeitgeist Movement should have created a list of scientists (explaining that's not what the Zeitgeisters did to point out they knew nothing) and then you hear Roxanne Meadows insult scientists and say that they would not understand anything they present and are not willing to show anything yet? All I can say is good luck with that strategy. Funny picture.

- o Yeah I know mate, the way that they throw one line of reasoning out to one subset of people, then switch it around completely oppositely to get on the good side of another is what most people term: Pathological or compulsive liars. This is usually a characteristic of a sociopath, and lord knows that Fresco and Meadows fit neatly into those categories, they will say anything to get their way.
