## [Alien Abductees and Conspiracy Theorists](#)

Well recently I have been hanging about in a forum for alien abductees, it seemed like a fun past time to check out and observe. Being that UFO's are interesting subject matter, though I don't believe in them being alien driven space ships from outerspace. I tend to think there's more mundane and rational reasons for their existence, and yes before you knee jerk I have seen a couple myself and can't explain them away as just swamp gas or weather balloons.

I do though not believe in alien abductions or for that matter believe aliens are visiting this planet in their mother ships and transport drones.

So yes this website I have been visiting has a forum and a chat room, where you can get involved and post about whatever topics you want to in relation to the topics. I of course went in there and made a few posts about conspiracy theorists and how their claims were fabricated, and explained with evidence and examples. The rationale given back were the typical memes and tropes of those familiar with the paranoia conspiracy theorists exhibit. The usual diatribe of people opposing their worldviews as being paid informers, government party line towers, sheeple, liars, ignorant fools, unresearched idiots etc.. those of you who combat conspiratorial mindsets on a daily basis will know the typical regurgitation you have to absorb about your point of view on the matter.

I decided to hang around there for quite some time making a few new friends who were reasonable folk, well-meaning people though somewhat deluded and perhaps even a little weird. Also some highly educated and rational folks who refused to believe the insanity of the topic and preferred to have cold hard facts and evidence to back it up, though these people sadly were few and far between on there.

The owner of the website a guy who lives in Colorado in the USA, goes under the name of Alien Photog. He is a 29-year-old almost 30-year-old man married to an older woman who claims to be in contact with aliens on a regular basis and believes himself to be some kind of prophet who knows everything about the world and the future and past of human kind. Sadly this could not be further from the truth, he has recently taken to making claims his grandfather started up the whole bohemian grove area for the illuminati. With claims his great-grandfather, grandfather and other family members were all friends of the presidents and were all high level freemasons who were committing evil plans to rule the world with sex slaves and satanic worshipping. All of which he has disclosed in public posts to members on the forum willingly and has freely

and himself given away without any explicit notification it was private or should remain private. His wife herself often discusses their personal life and matters online too, so it is not as if this information has been gleaned without their knowledge or willingness to disclose it.

Of course this to anyone with a rational mind would require a vast amount of evidence but this does not really matter much to him and his followers, who lap up every word he says on his forum, radio show and you tube channel. On his own forum in a thread he discusses his family ties to the freemasons and bohemian grove he opens with the following statement:

## My Grandfathers That Founded “Bohemian Grove” ... Decided I’m Ready To Talk About It Some

Alright, This is something i’ve been quite secretive about since I found out. I decided I’m ready to start talking about it some. So ... I’ve got this one in the ‘Not Sure If Anyone Gives A Shit’ File for now ... i really don’t know if people will be interested in this.

Before I begin, I want to let you all know the reasons I’ve not yet talked about this.

1. Paranoia of being known publicly. That said, it is what it is and I am who I am. I highly doubt it’ll lead to my identity being discovered. If it does, it does.

As can be seen evidenced here: <http://www.4shared.com/document/9TwGggmA/my-grandfathers-that-founded1.html>

All the subsequent conversation points and claims of his family ties to conspiracy theories and mentions of satanic ritual abuse, and brothels etc can be seen on the following links:

Notice how he publicly and openly gives away information that could lead to identifying him online and then categorically states if he is found out from the information, he does not mind as he has decided to talk about it. This is a self admission and public disclosure of his own doing, and is not an invasion of privacy by anyone else but himself doing it.

Recently I decided to confront some of the more bizarre claims he was making about the eye of Horus, freemasonry and conspiratorial beliefs and he went about calling me and others who agreed with my point of view liars, uneducated, and the usual tropes. One of the members a guy called Brent private messaged me after the interchange with the owner and I explained my stance on how I thought conspiratorial thinking was dangerous and ill minded. Suddenly I found myself banned from the forum, weirdly enough I had not broken a single rule of the pace, I was totally polite and honest about my opinions, nothing was an insult towards any specific person in general so it was not like I was being hostile towards anyone.

**It turned out the reason I was banned and had everything I had ever posted there removed , and were talking months of in-depth and well explained detailed posts proving their claims to be false and unfound in any reality, was because I had said something to someone in a private/seperate external conversation about something they did not like.**

**So in essence it appears from the claims made about me that they have gone through a private conversation with someone and then used that as grounds to delete every post I ever made and remove me from their forum. Interestingly enough this member is posing as a skeptic to conspiratorial thinking on the forum, so if he is sharking people [which I am uncertain of] then this may show just how paranoid and how large liars they are. To be this deceitful and invade another's privacy beggars belief. For someone who claims to be trying to benefit humanity whilst spewing fear and death prophecies of the illuminati, whilst potentially subversively infiltrating people's private discussions and rooting out those who would disagree with his paranoia seems unethical and totally dishonest.**

**His you tube is here: <http://www.youtube.com/user/alienphotog>**

**I will discuss more in-depth about specific points about this place later on in other blogs, as it has now become another place filled with fantasy, lies and conspiratorial bullshit I want to expose.**

**Forgot to mention this guy claims hes an alien hybrid as well.**

**He makes so many claims its hard to keep up with what reality he actually lives in, but one thing is for certain..hes a conspiracy theorist, believes himself to be an alien**

**abductee/alien hybrid, believes hes the spawn of freemasonry and satanic worship, and finally a bohemian grove CT believer.**

**[Here is a youtube video of his claims:](#)**
